2017 MILL AND OVERLAY SCHEDULE
UPDATED 5/18/2017

The District Property Management Department is coordinating with Rainey Construction to mill and overlay several roadway areas.

The District will deliver notices to each home that will be impacted by the work approximately 7-10 days in advance, in addition to placing informational signs at the entry and exit of each villa which will include the anticipated start and end date of the project.

The timeline may be adjusted due to unforeseen circumstances, including weather. If the timeline is adjusted, the informational signs at the villa entry and exits will be updated.

The District thanks you in advance for your cooperation to ensure this is a successful project, and encourages you to adhere to the instructions that you will receive in the future.

Executive Golf

Executive Golf is taking full advantage of the bi-weekly course closure times to ensure the sustainability of the executive golf courses. These closures allow courses to recover and give contractors an additional opportunity to complete necessary maintenance work that could not take place without golfer inconveniences.

The first phase of the El Diablo planned renovations this summer have begun and are on schedule. All greens and tees surface areas have been stripped.

Just a Reminder

Due to the lack of rain fall, Southwest Florida Water Management District (SWFWMD), the state water management agency for our area, declared a Phase III Water Shortage effective June 5, 2017. The declaration includes all of The Villages in Marion County, Sumter County, and District 11 (Villages of Fruitland Park) in Lake County along with numerous other counties in SWFWMD.

Under the new water shortage order, lawn watering is reduced to once-per-week and allowable watering hours are reduced to before 8 am or after 6 pm. Irrigation schedule information can be found in the Fact Sheet on the following page. Micro-irrigation and hand watering of non-lawn areas are still allowed any day, if needed. The restrictions will remain in effect through at least August 1, 2017. Additional details regarding the watering of new lawns and plants, reclaimed water and other water uses can be found at WaterMatters.org/restrictions.

SWFWMD considers both natural water resource conditions and the viability of public supply when deciding to declare a water shortage order. For the past 20 years, SWFWMD has worked diligently with its partners to develop alternative water supplies. Even though the region is experiencing drought conditions, there is adequate public water supply available.

The approved rate structures for the Village Center Service Area (VCSA), Little Sumter Service Area (LSSA), the North Sumter County Utility Dependent District (NSCUDD), Sumter Water Conservation Authority (SWCA), and Fenney Water Conservation Authority (FWCA) include an Environmental Protection Rate Surcharge in the event a water shortage is declared by SWFWMD. In accordance with the rate structure, a 10% surcharge will be added to water usage beginning June 5, 2017 as a result of SWFWMD's declaration of a Phase III Water Shortage. The incorporation of these rates promotes water conservation in the event of a water shortage, and they were also critical during the development and approval of the rate schedules and water use permits with SWFWMD.

SMART MANAGEMENT OF WATER RESOURCES IN FLORIDA'S FRIENDLIEST HOMETOWN

FACT SHEET
SWFWMD MODIFIED PHASE 3 WATER SHORTAGE ORDER

The Southwest Florida Water Management District's Governing Board issued a Modified Phase III Water Shortage Order scheduled to begin on June 5, 2017. The order restricts residential and commercial irrigation of lawns and landscaping to one-day-per-week along with other restrictions described herein.

Residential and general commercial customers in The Villages do not receive reclaimed water. Non-potable irrigation water is not exempt from the restrictions, therefore the restrictions are applicable to The Villages in:

- Sumter County, Districts 1, 2, 3, 5, 6, 7, 8, 9, 10, and 12
- Marion County, District 4
- Lake County, District 11

The following is a summary of the restrictions.

- Residential and commercial lawn and landscape irrigation may only occur before 8 a.m. or after 6 p.m. on the designated once-per-week watering schedule.
- Handwatering or microirrigation of plants (other than lawns) can be done any day at any time, if needed.
- Certain exemptions are available, such as allowances for new plant material. Refer to www.watermatters.org/restrictions.
- Car washing is limited to once per week on the designated watering days as shown below.
- Commercial car washes may operate on any day.
- Fountains and other aesthetic-only water features may only operate 8 hours per day.
- Pressure washing is allowed once per year and for necessary purposes, such as prior to painting or sealing, to address a health or safety hazard, or to comply with health laws. Aesthetic concerns do not constitute a "necessary" purpose.

Addresses with "house numbers"	May only irrigate on ...
Ending in 0 or 1	Monday
Ending in 2 or 3	Tuesday
Ending in 4 or 5	Wednesday
Ending in 6 or 7	Thursday
Ending in 8 or 9	Friday

All commercial and residential customers must modify their irrigation timer to only irrigate once per week in accordance with the above table.

Deed restrictions and community standards enforcement must suspend any requirement to replace lawns, pressure wash, or engage in other activity which increases water use during this water shortage declaration.

For complete details or to ask questions about these restrictions, visit the Southwest Florida Water Management District's website (www.WaterMatters.org) or call 1-800-848-0499.
