

Sumter County Speed Limit Study and Implementation Updates Historical Information

Status Update – 12-13-11

Sumter County has installed the peripheral signs at 12 locations around The Villages, which indicates that the speed limit within The Villages is 20 mph unless otherwise posted, and has removed the 50 signs from various locations within The Villages per the plan (table 4), thus making the speed limits on those roads 20 mph by default. Over the next few days Sumter County will install the new signs per tables 2 and 3 in the plan, thus completing implementation of the new Villages Speed limit policy before Christmas.

Sumter County 20 mph Speed Limit Implementation Information

The Sumter County Public Works Division will begin the implementation of the adjusted speed limit signage in and around the Sumter County portion of The Villages the week of December 5, 2011, with the completion date no later than January 13, 2012.

Sumter County Speed Limit Study

Sumter County had the existing streets within the Sumter County portion of The Villages evaluated to identify cases where a 20 mph speed limit would not be appropriate. To review the complete study please click on the link below for the report provided to Sumter County. (Study)
